Morningstar Rating™ based on risk-adjusted returns among 372 Moderate Allocation strategies

DESCRIPTION: A composite of separately managed accounts seeking to opportunistically allocate between asset classes to provide a combination of capital appreciation and current income.

OBJECTIVE: The Waterfront Balanced ('WB') strategy seeks to provide a total return in excess of a 60/40 blended benchmark of equity (S&P 500) and fixed income (Bloomberg U.S. Government / Credit Index). The blended portfolio of assets is diversified across sectors with security selection governed by a disciplined emphasis on finding reasonably priced profitable companies with sound capital structures.

Policies and procedures for valuing investments, calculating performance, and preparing performance reports are available upon request.

The composite was created on November 16, 2021 and the inception date is August 4, 2014.

Performance prior to November 16, 2021 occurred while the investment manager was affiliated with another firm. Historical returns include the Ivy Balanced Institutional share class (ticker: IYBIX) returns which was managed by Matthew Hekman from 8/4/2014 until 11/15/2021. The Investment Manager has managed the composite since its inception, and the investment process has not changed. The historical performance has been linked to performance earned at Waterfront Asset Management.

Portfolios are excluded from the composite if they have a significant cash flow. A significant cash flow is defined as a contribution or withdrawal greater than 25% of the beginning market value of a portfolio. The portfolio is excluded from the composite for the month in which the significant cash flow occurred.

Morningstar rating™ is calculated on a quarterly basis for Separate Accounts with at least a three-year history. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a Separate Account's monthly performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of Separate Accounts in each category receive five stars. The next 22.5% receive four stars, the next 35% receive three stars, the next 22.5% receive two stars and the bottom 10% receive one star. The Overall Morningstar Rating for a Separate Account is derived from a weighted average of the performance figures associated with its three-, five- and 10-year (if applicable) Morningstar Rating metrics. Morningstar will not calculate ratings for categories or time periods that contain fewer than five Separate Accounts. There are some differences between the Separate Account rating methodology and the rating methodologies of other investments. All Separate Account performance data is reported to Morningstar as a "composite" of similarly managed portfolios. Separate Accounts are based on total returns that have not been adjusted for investment management fees, and the returns are not tax-adjusted for accounts that invest in municipal bonds. To ensure that ratings are fairly assigned, ratings are calculated only for firms that indicate their composites are calculated according to GIPS® from the CFA Institute. Approximately 90% of the firms in Morningstar's database submit composites that are depicted as GIPS-compliant. ©2023 Morningstar. All rights reserved.
